

## In sourcing Services

Eurofins Advinus offers insourcing services for the life sciences industry, a program designed to help pharmaceutical and biologics companies complete their R&D projects cost effectively and meet the shorter development timescale demands.

As your strategic partner we will hire, train and manage our employees

to perform your defined scope of work directly at your site. This helps free you to devote your resources and focus on your R&D landscape. We exclusively manage and train our team for you!

We have the experience and expertise from Global Eurofins Insourcing Solutions.

Eurofins insourcing solutions has over 17 years of experience serving customers in 85 sites across the globe. They have been recognized 12 times in the last 11 years with strategic partner awards from clients.

Being part of the Eurofins network we are able to offer this model within India.

## The Benefits Of Our Insourcing Services

- Reduce headcount
- Allows you to focus your resources on core priorities
- Eliminates co-employment and project-management worries
- Quality process improvement matrices to demonstrate the effectiveness of the program
- Flexibility for short-term or long-term projects
- Provides the security of keeping projects at the client's facility, hence helps in maintaining highest level of control and confidentiality without the burdens of employment
- Addresses immediate turnaround times
- Reduces costs vs. outsourcing
- Mitigate risk from hiring mistakes
- Condenses product development cycles
